Interview with the Cleveland shin.shin.org
What is the role of the Shin Shin in Cleveland?
Our role is to simply reach out to congregations, schools, wherever there are youth programs run by硬盘 (which in Hebrew means ‘teens’). We want to bring new voices to be more involved and learn more. We share our own experience in early age and we want to bring a new great way of making a contribution to Israel. By doing our personal academic experience, in Cleveland and in Israel, we are learning and developing connections that are meaningful for both sides.

Q: so far, how has it been?
It’s been amazing! Every day is a new adventure that leads each one of us to new insights about Israel, Judaism, the outstanding Jewish community of Cleveland and ourselves. Yes, we are far from home, but most of us have already settled into a routine and it is not that exciting to see squirrels alive. We have learned to live with the people our age. It’s so fun! We’ve become connected, the teens and adults, community of Cleveland and ourselves. Yes, we are far from home, but most of us have already settled into a routi ne and it is not that exciting to see squirrels alive. We have learned to live with the people our age. It’s so fun! We’ve become connected, the teens and adults, community of Cleveland and ourselves.
